01 Standardprodukte

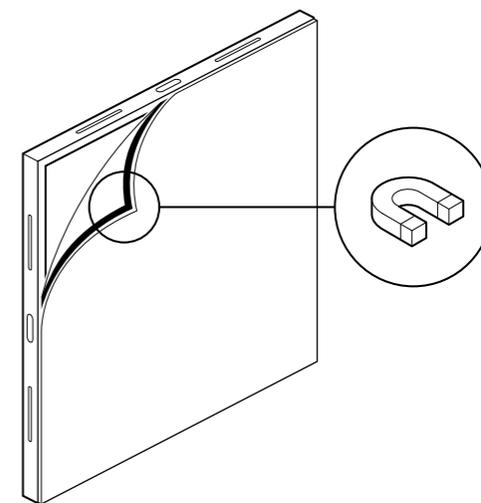

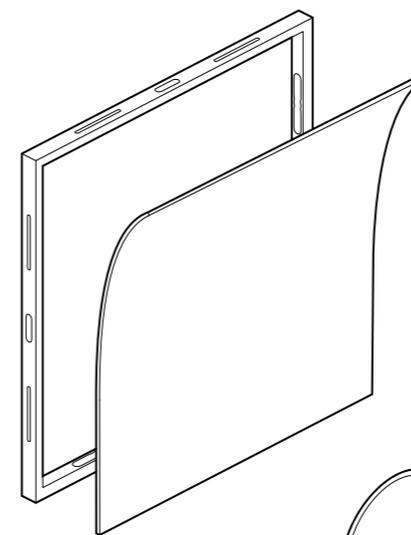

02

So geht`s los

Pro Tipp!
Beginnen Sie immer mit einem Eckprofil oder Standfuß, um stabil zu starten.

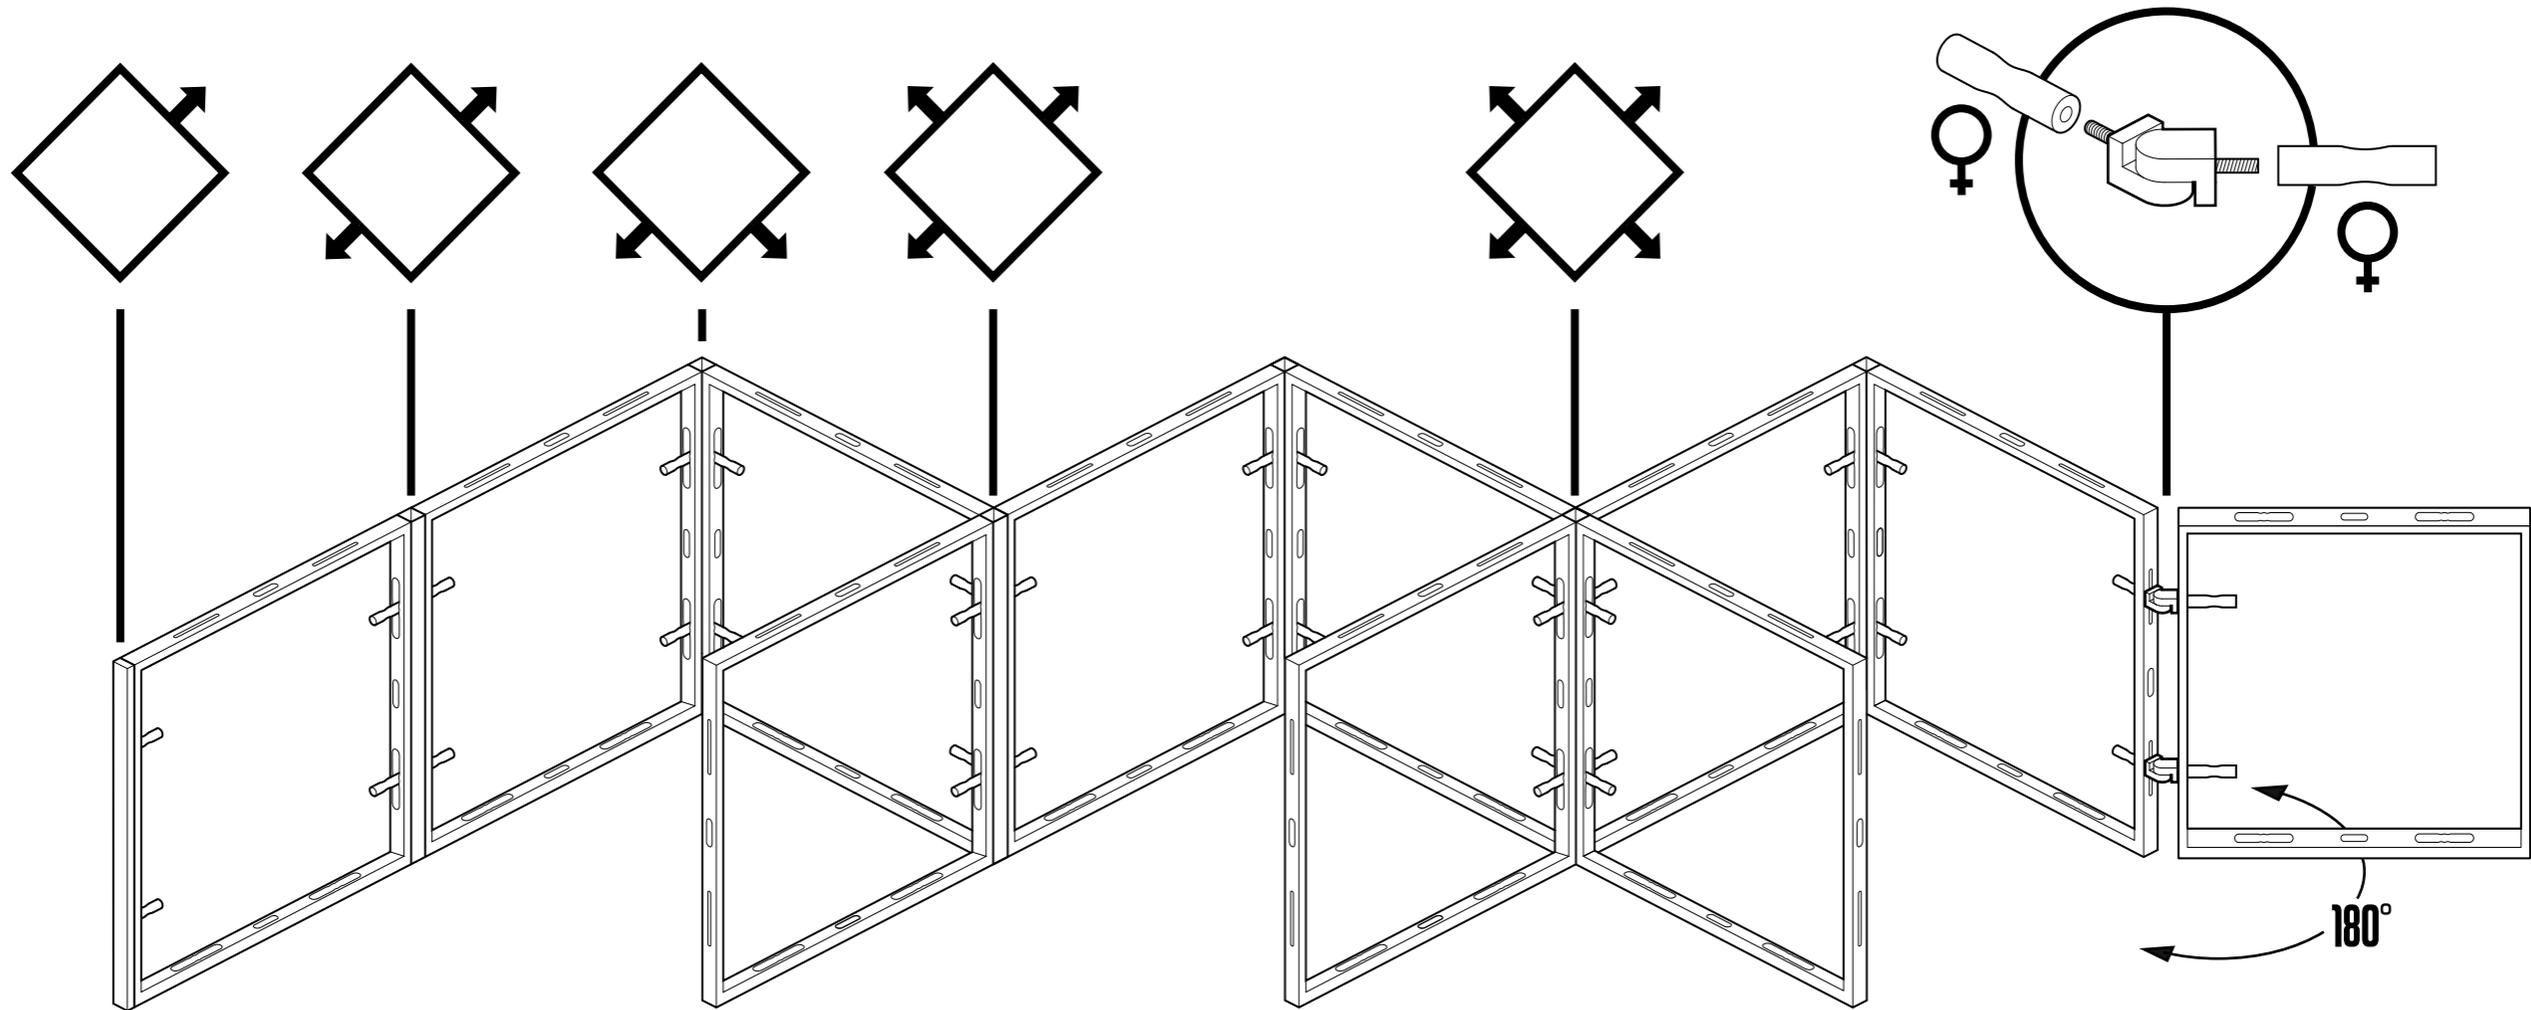

Saugnapf

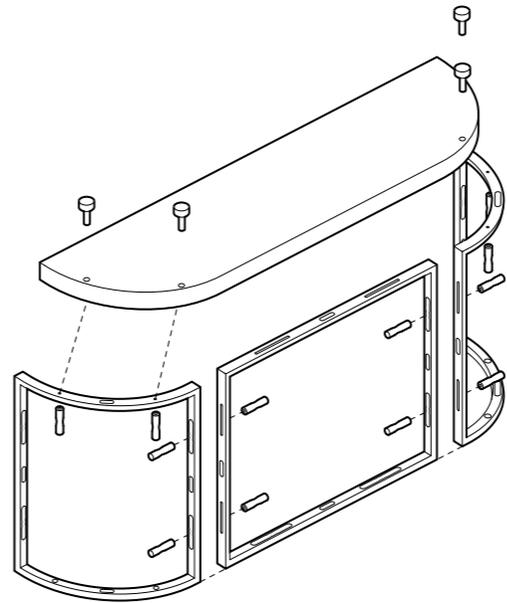

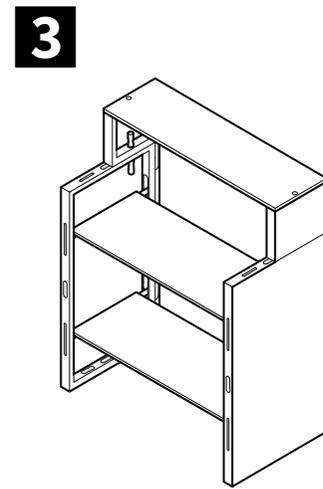

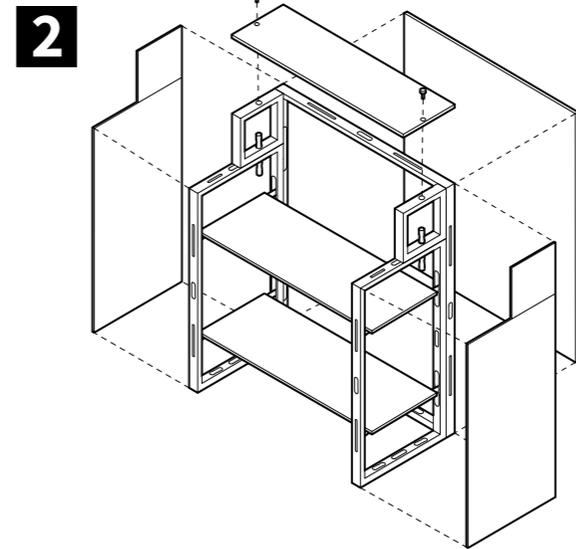

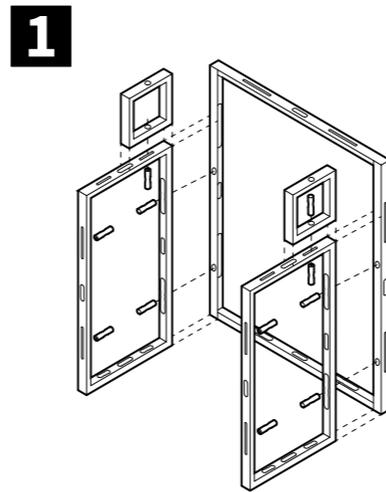

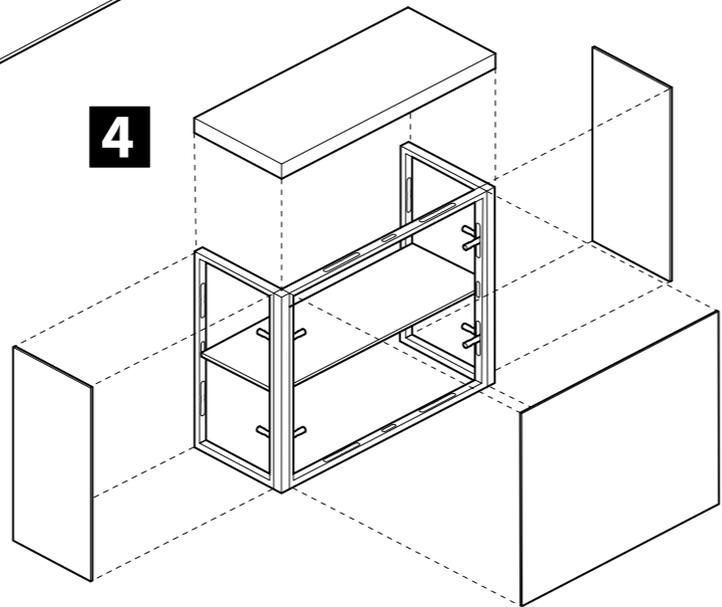

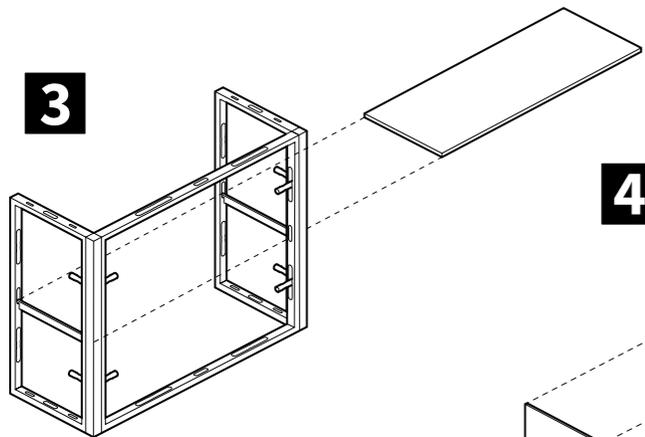

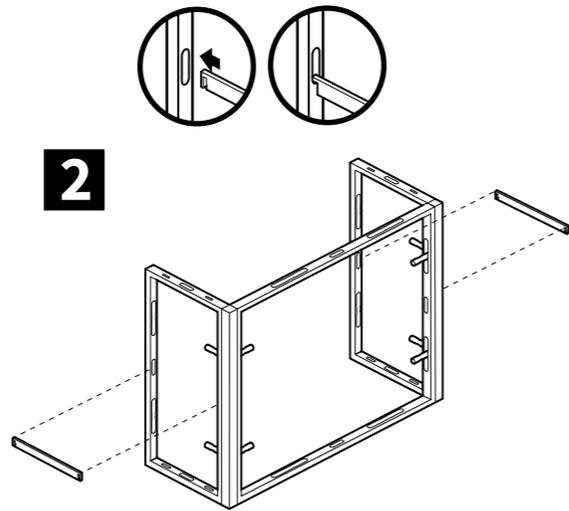

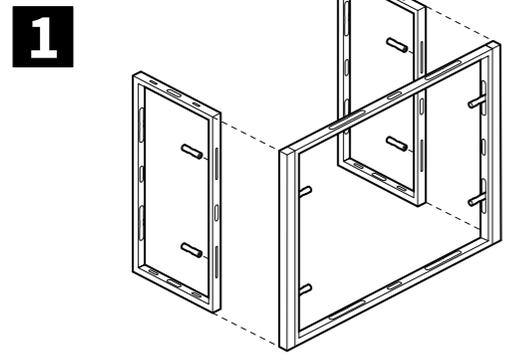

Pro Tipp!
Paneele am Besten mit dem ayble - Saugnapf entfernen.

03

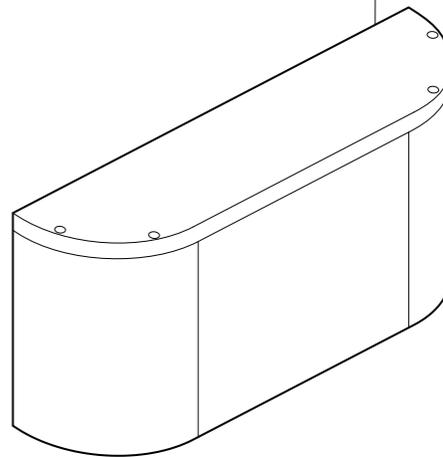

Vielfalt der Profil- und Verbindungselemente

04 Theke / Bartheke

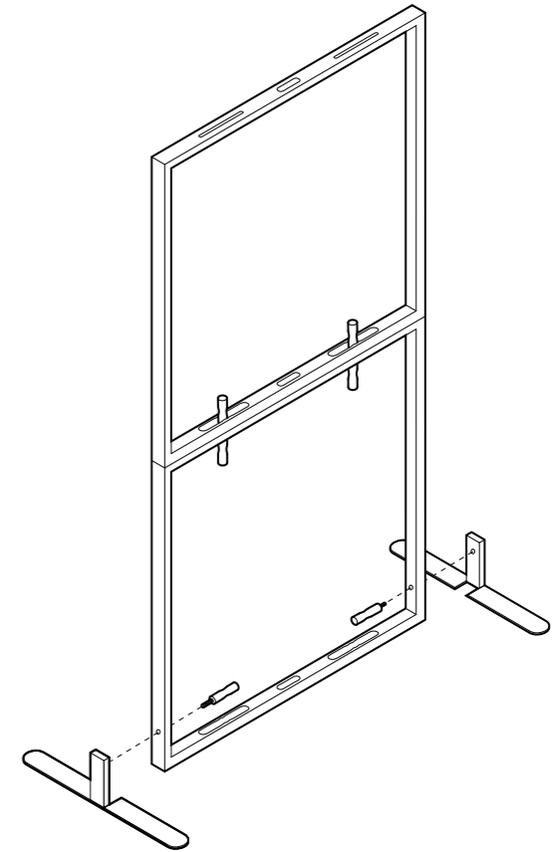

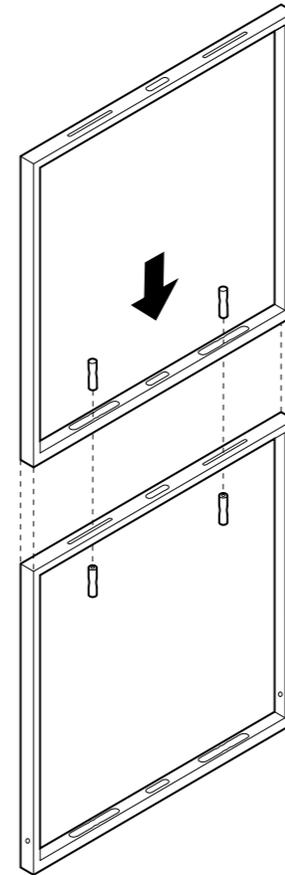

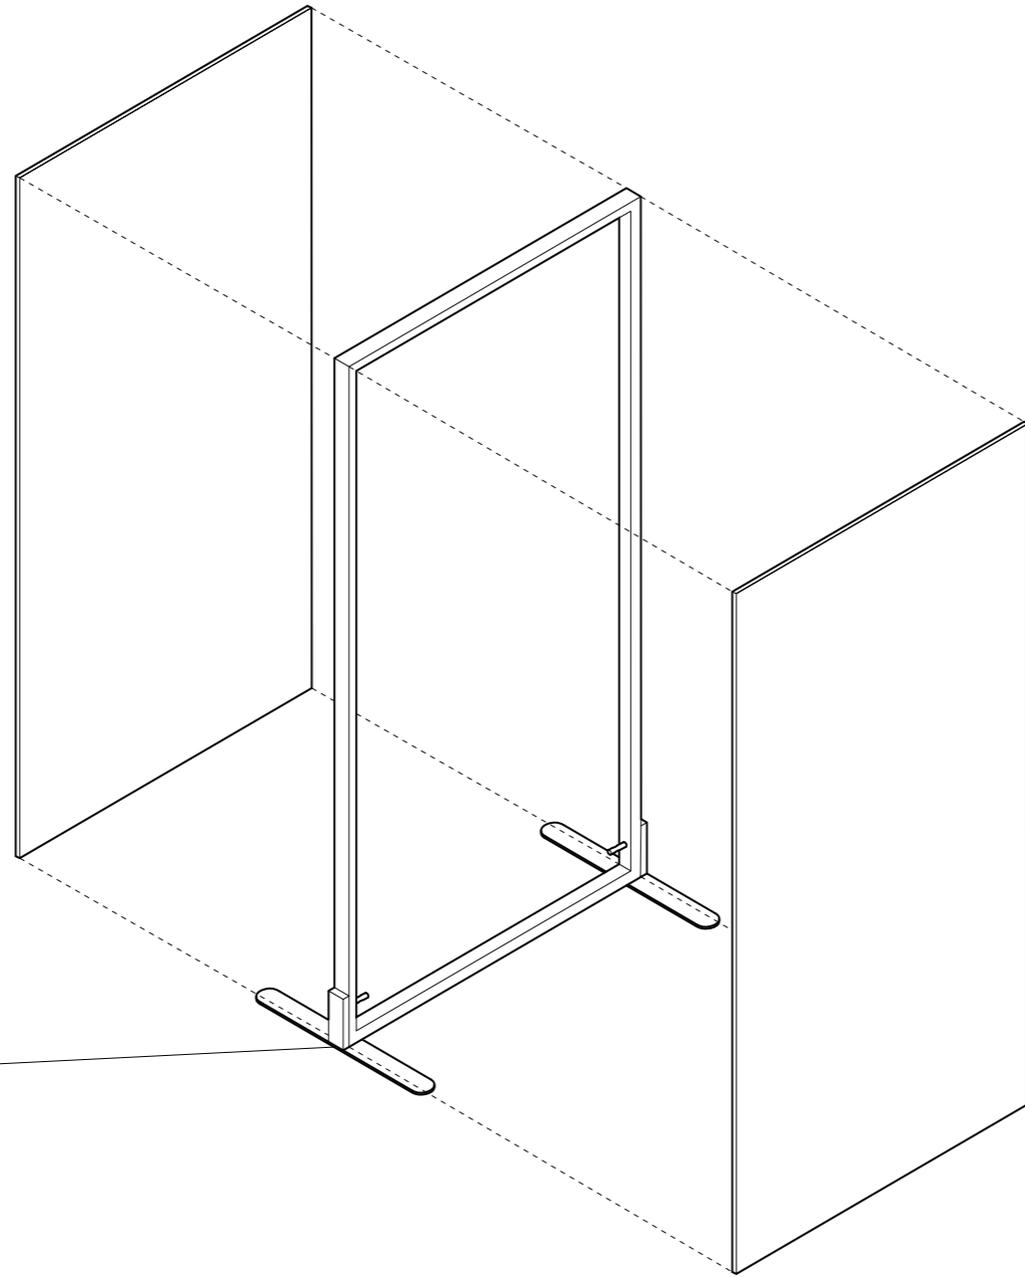

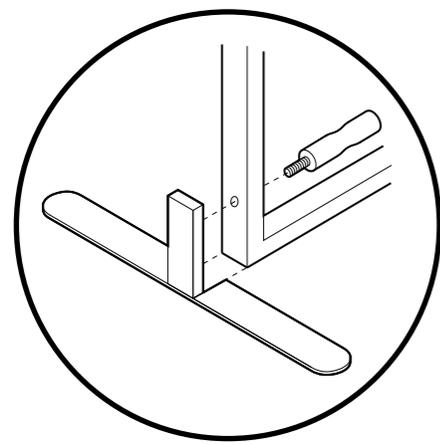

Rundrahmentheke

05

Stelen

Einzelrahmenstele

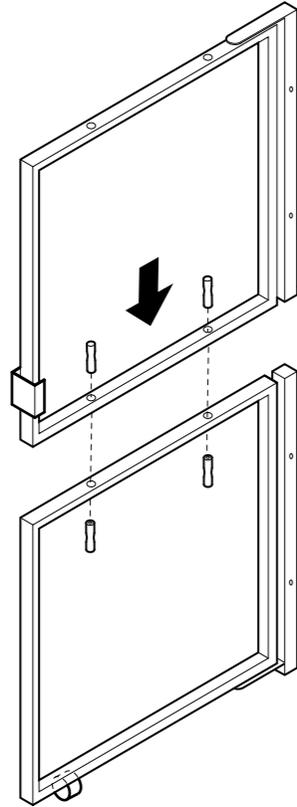

Doppelrahmenstele

2

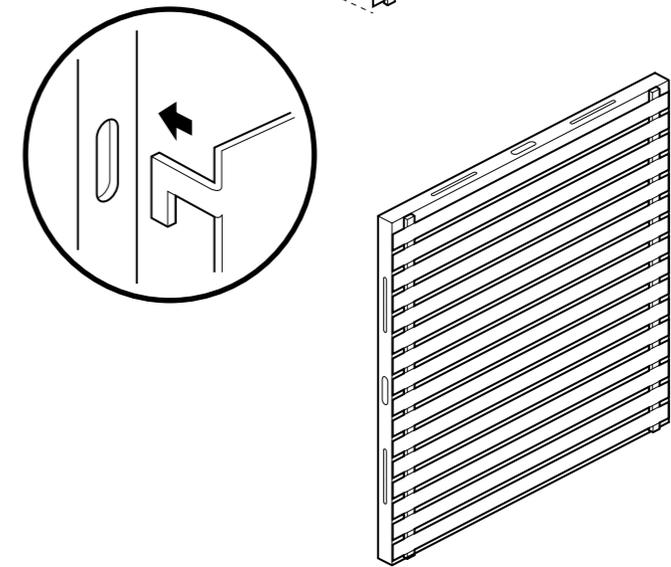

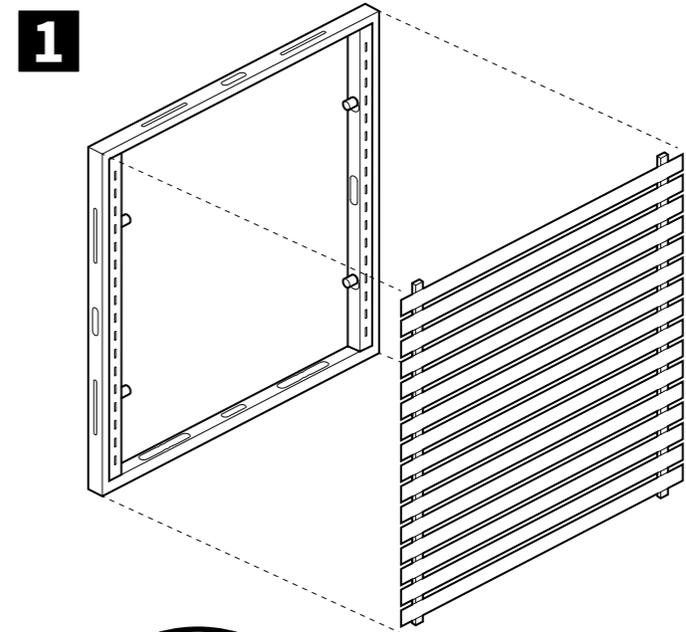

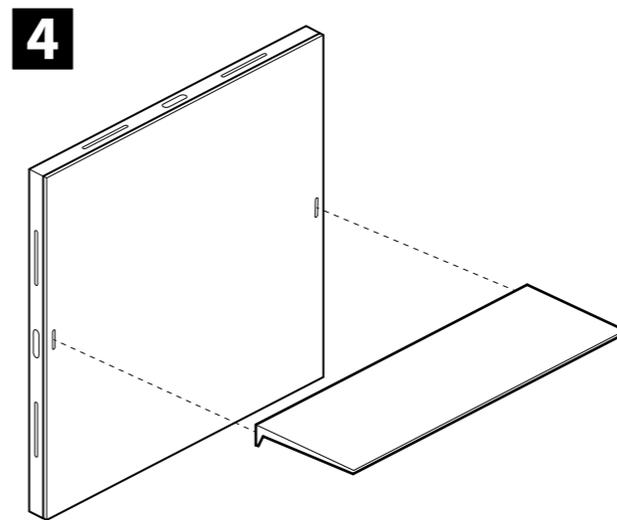

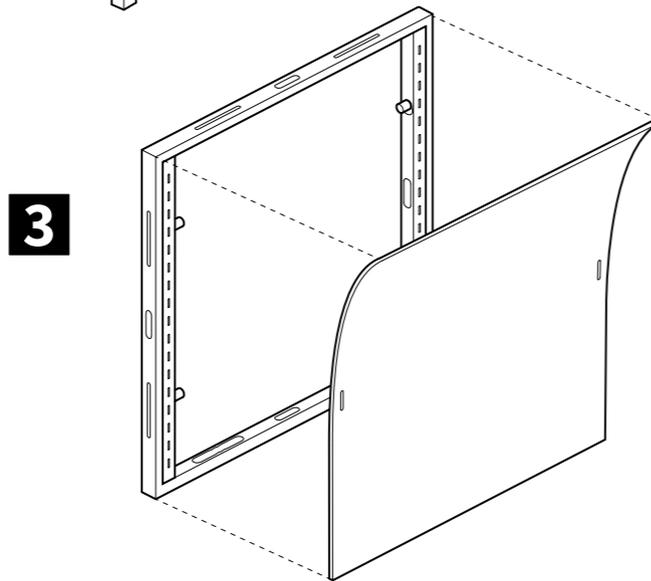

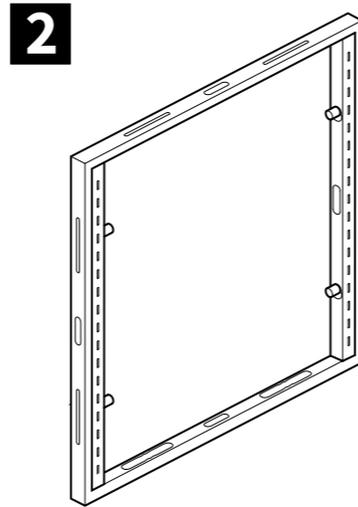

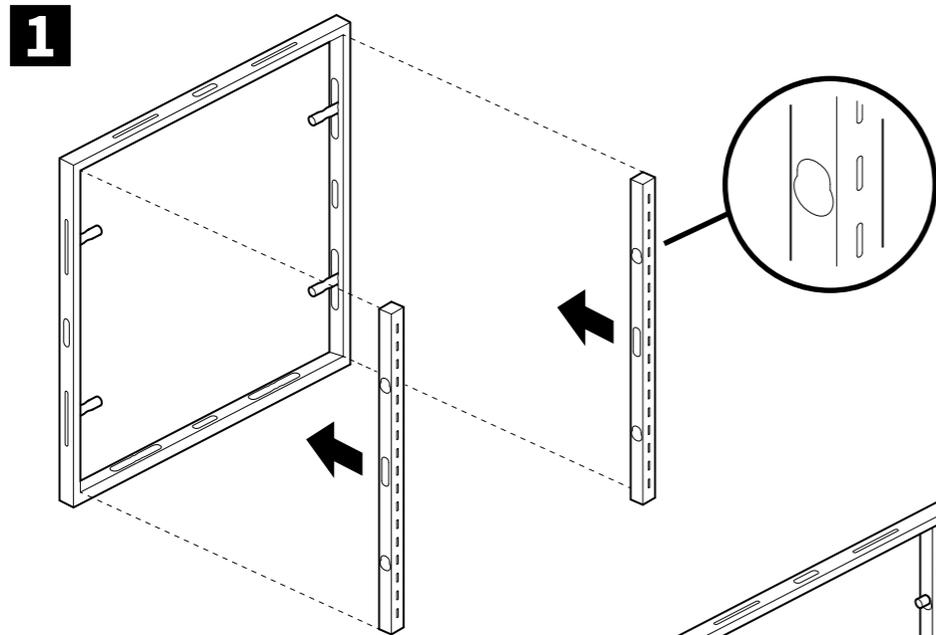

3

12

Prospekthalter

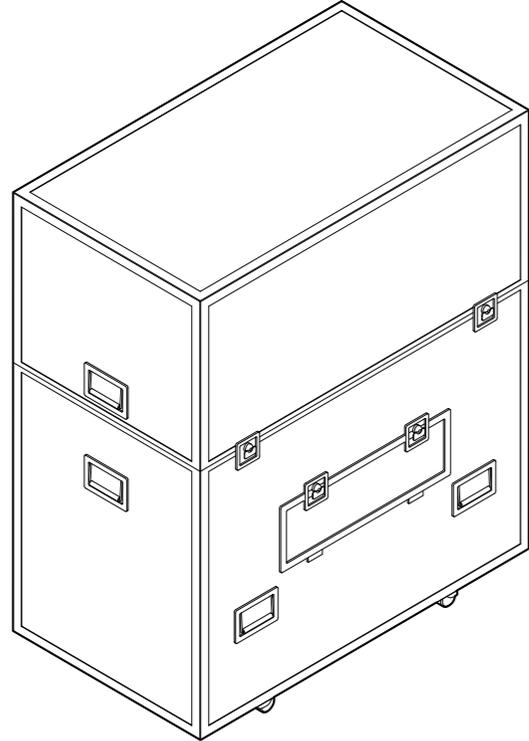

Pro Tipp!
Beim technischen Profil das 5 cm
kürzere Panel verwenden.

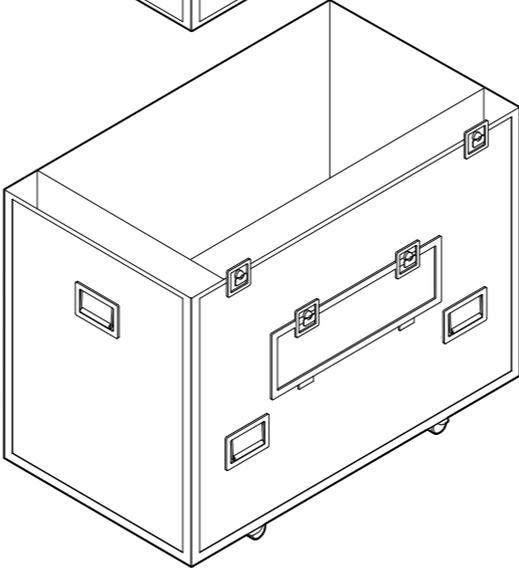

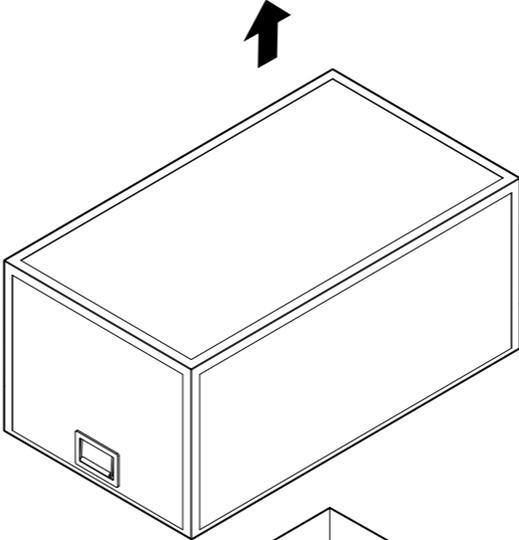

Rahmen + technisches Profil

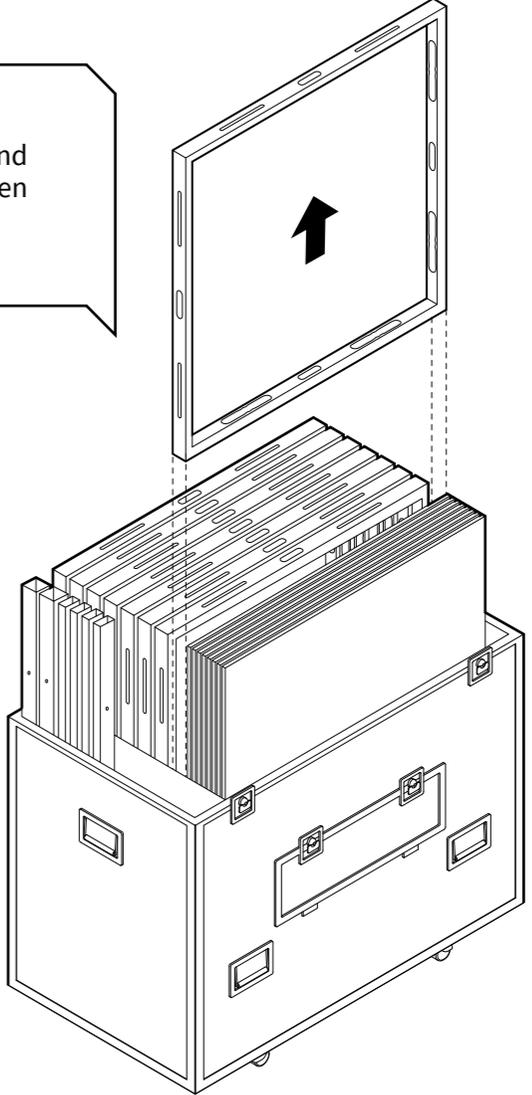

Flightcase

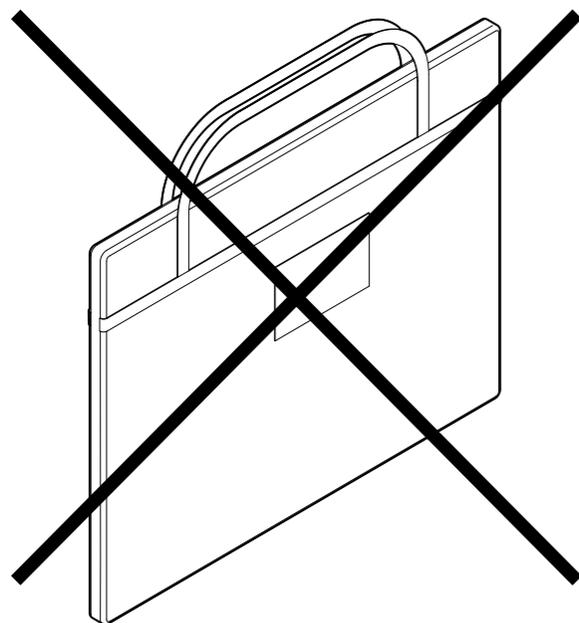

Pro Tipp!
Deckel immer zu zweit
abnehmen.

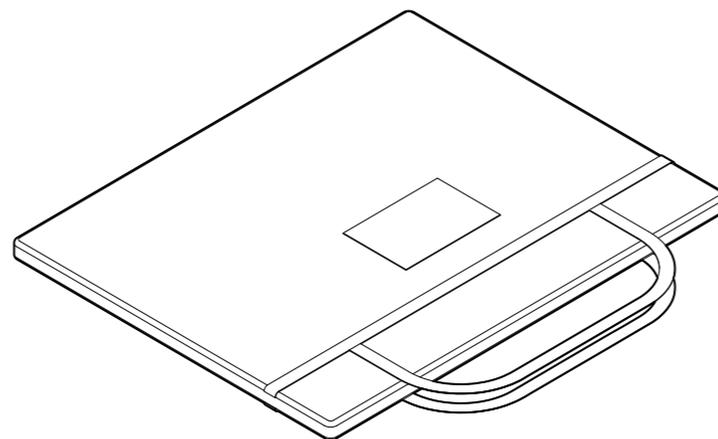

Pro Tipp!
Heben sie die Rahmen und
Pannele gerade nach oben
heraus, um Kratzer zu
vermeiden.

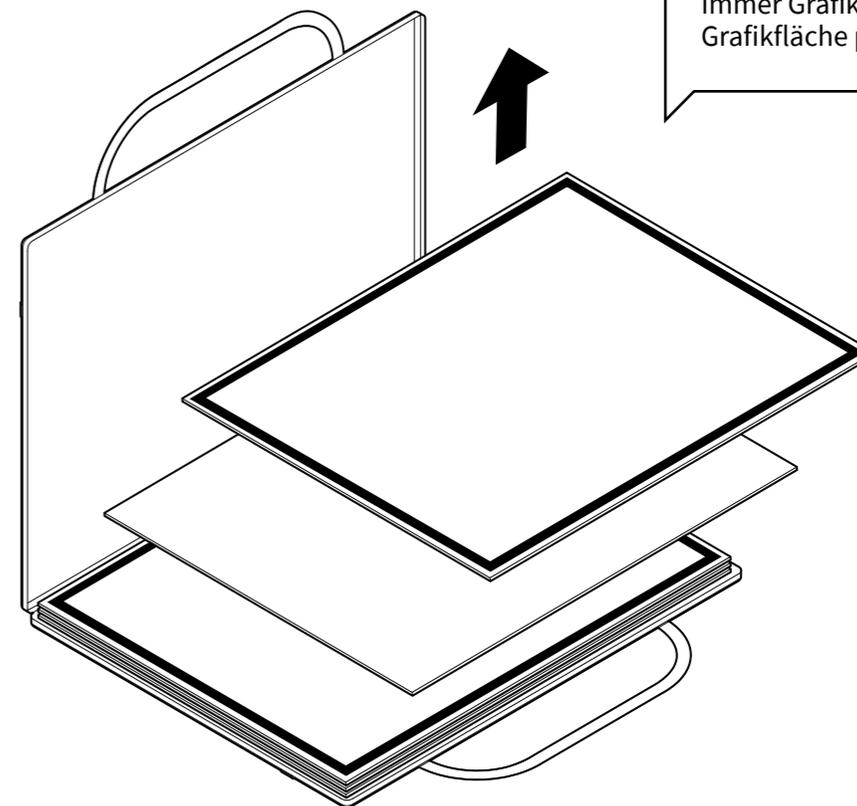

**Pro Tipp!**

Um Verformungen der Paneele vorzubeugen, die Paneeltasche nur liegend, nicht lehend ablegen.

**Pro Tipp!**

Immer Grafikfläche auf Grafikfläche platzieren!

**Pro Tipp!**

Um Kratzer zu vermeiden, die Paneele beim Herausnehmen nicht übereinander ziehen.
